Friday---The Remnant Day.

It's the Last One in February.

Do you ever wonder why we have a clearing-out sale once a week? Just stop and think a moment and you'll realize what a store we would have if we put away week by week all the odds and ends and last of the season's goods and if we kept everything up to the early season's prices and held over until next fall all the thousands of remnants and broken sizes and lots that go out every Friday.

Wrap Department Odds and Ends.

Notwithstanding the weather has been very disagreeable all week for shoppers, our winter stock has been disappearing quite rapidly. Pleasant news for us, of course. Out of the large stock of furs we carried this season there's only a small quantity left over. If you find anything in the lot you want you'll also find the price less than one-half.

MAYOR TAYLOR SAYS HE IS READY

TO REDUCE REPRESENTATION

Captain McCarthy Speaks to the People a the Trigg Works-Many Candidates Out for Honors.

Mayor Taylor said vesterday that he was ready to make his campaign speech and to go shead with the canvass.
"I have held back long enough," he said, "but now I am ready and anxious to say my little piece.
"I think that the said."

"I think that the place to open in is at my own club, the Clay Ward Actives, but if the meeting on Saturday is purely a business one, I shall not, of course, speak at that time. I am going to make one speech in reply to what has been

said, and then I shall simply go around among the boys and shake hands. The friends of the Mayor are thinking of securing the Academy of Music for his opening speech, so that all who wish to hear him may do so.

There is a lot of talk among local politicians about a reduction in the mem-bership of the City Council. They de clare that body already too unwieldly for practical purposes, and look with alarm upon the increasing representation that is occasioned by the division of Clay

It was suggested at a meeting of pron ment politicians yesterday that one Al-derman and two Councilmen from each ward would be of sufficient strongth to transact the business of the city, and that with a salary attachment of \$2,000, men could be secured to serve the city mething else besides what "there

The agitation of the question will continue, and with such men as those en-gaged in the discussion yesterday behind it, something will probably result.

There is a general expression of confidence in the plan of counting votes at the primary as suggested by Alderman Turpin. "What's the use of counting votes of candidates who have no oppo-sition?" said a prominent political leader yesterday. "By simply announcing them as the nominees of the party, much time and labor may be saved. There is little doubt that the suggestion will be accepted by the City Committee."

Captain McCarthy spoke before the workmen at the Trigg ship-yards at the dinner hour yesterday. He received the closest attention from the men. He referred to the work the great corporations had done for the city, but said they must not be allowed to reign over the people. He said the street car fares were a certain form of taxes of the people, the strange thing that the tax was on property they owned and turned over to the street railways. A straight, honest government is the best and cheapest for street railways, for then they can get what they want without paying for it over and over again. A mayor is needed who can see what the city is in order to make it what it should be. ONLY A SUGGESTION,

But It Has Proven of Interest and Value to Thousands.

Common sense would suggest that if one wishes to become fleshy and plump it can only result from the food we eat and digest, and that food should be albuminous or flesh-forming food, like eggs, beef-steak and cereals; in other words, the kind of food that make flesh are the foods which form the greater part of our daily bills of fare.

But the trouble is that while we eat enough and generally too much, the stomach, from abuse and over-work, does not properly digest and assimilate it, which is the reason so many people remain thin and under weight; the digestive organs do not completely digest the flesh-forming beef-steak and eggs and similar wholesome food.

There are thousands of such who are really confirmed dyspeptics, although they may have no particular pain or inconvenience from their stomachs.

If such persons would lay their prejudices aside and make a regular practice of taking, after each meal, one or two of Stuart's Dyspepsia Tablets the food would be quickly and thoroughly digested, because these tablets contain the natural peptones and diastase which every weak stomach lacks, and by supplying this want the stomach is soon enabled to regain its natural tone and vigor.

Stuart's Dyspepsia Tablets is the most form of flesh-forming food, meat, eggs, bread and potatoes, and this is the reason they so quickly build up, strengthen and invigorate thin, dyspeptic men, women and children.

Invalids and children, even the most delicate, use them with marked benefit as they contain no strong, irritating drugs, no cathartic nor any harmful ingredient.
